

Re-Open Endurance Sports & Get California Moving Again

California Coalition of Endurance Sports started this petition to Office of Governor Gavin Newsom and 3 others

California’s endurance sports industry has experienced a complete shutdown as a result of COVID-19, with no end in sight. The pandemic continues to exact a daily toll on the state's physical, mental and economic health. Immediate action is crucial because most endurance events take place on an annual basis and require extensive planning; thus, any further delay in re-opening threatens not only the short-term viability of upcoming 2021 events but the long-term viability of the businesses that produce these events.

Annually, the endurance industry in California generates in excess of \$1 billion in tourism and economic activity and over \$70 million in charitable contributions while improving the physical and mental well-being of some two million participants. For many individuals, regular attendance at these events plays a vital role in supporting their personal health through the many positive benefits of community.

Endurance events are ideal for a safe, tiered re-opening, since they take place outdoors with participants in constant motion (i.e. built-in social distancing). Not only that, but race day practices can be modified to limit the number of people in any one place at a time, e.g. using rolling/staggered starts, re-imagined aid stations and no post-race party.

Importantly, of the nearly 8,000 annual endurance events (including runs, walks, bike rides & triathlons) produced in the state, the top 5% average 6,000+ finishers whereas **the other 95% represent smaller events that largely operate as family-owned businesses.**

Moreover, the viability of our re-opening plan is firmly rooted in science. As Tracy Høeg (MD, PhD in epidemiology) points out, "COVID transmission is around 20x more likely indoors and, with the exception of a few crowded construction sites, no outdoor superspreading events have been reported." Indeed, in a study of 787 Japanese running events held from July 1–Oct 4, 2020, only one case of COVID-19 was reported in the two weeks following the event in a sample of nearly 670,000 athletes and officials. By comparison, the odds of being struck by lightning in a given year are roughly 1 in 500,000.

Curiously, similar and higher-risk activities are now permitted across the state. Both youth and adult cross country and track & field activities are now permitted in even the most restrictive (purple) tier. Ski operators likewise remain open resulting in long, slow-moving lift lines. Also allowed are outdoor dining at restaurants and indoor retail shopping, each of which clearly presents a greater risk of viral transmission than do individuals in constant motion passing each other outdoors.

California is frequently held up as a paradigm of progress and forward-thinking for other states to follow; in this case, however, the state has failed to live up to its own expectations. We call on California's elected leadership to follow the science and authorize immediately the safe, tiered re-opening of endurance events statewide.

Jennifer Curry	San Jose, CA	2021-03-06	"I want to race again!"
Kimber Kaiser	Livermore, CA	2021-03-06	"As an athlete and someone who works in mental health, I know how important exercise is for adults mentally, physically and socially. We've opened up for kids. It's time to open up for adults!"
Kathy Degn	Sacramento, CA	2021-03-06	"Outdoor racing is safe and the benefits outweigh any of the risks."
Raven Iacono	Vallejo, CA	2021-03-06	"This is a completely safe activity. If you can eat in restaurants you should be able run outdoors."
Mike Beckwith	Dublin, CA	2021-03-06	"These races are so important to me and so many others. We can do this with social distancing."
John Rasey	San Jose, CA	2021-03-06	"I believe that the outdoor running events are able to be managed safely under the current covid conditions within California and provide a safer option than allowing additional capacity at indoor venues. I would also most likely reduce the spike/surge in demand on popular/well known city park and hiking pathways."
Alicia Cordova	Brentwood, CA	2021-03-06	"Good for the soul."
karen valentine	corte madera, CA	2021-03-06	"It's totally doable! Make it happen!"
Lindsay Tollefson	Mammoth Lakes, CA	2021-03-06	"Science"
Donna Hayes	Mountain View, CA	2021-03-06	"There is no logical reason why outdoor sports have not been allowed, especially when outdoor dining has been open for months!!!!"
Lili Lillie	Alamo, CA	2021-03-06	"Races can be safely resumed. These events are outside!! They promote public health and give much-needed stress relief to so many, not to mention the jobs and volunteers who gain from these events. Please reopen races! Thank you!"
Nancy Malaret	Sacramento, CA	2021-03-06	"I love getting to see the accomplishments of my friends at their races!"
Gabrielle Miller	San Francisco, CA	2021-03-06	"Enhance Public Health with outdoor exercise! We need fresh air, vitamin D from sunshine, and heart-thumping, blood-pumping movement!!!!"
Kerry Vicencia	Anaheim, CA	2021-03-06	"If Disneyland is going to open and people can eat inside restaurants, we should be able to race!"
Catherine Flynn	San Francisco, CA	2021-03-06	"Physical and mental health needs to be a priority."
Karla Dougherty	Citrus Heights, CA	2021-03-06	"I'm a runner and the safest sport right now is running"

And other states have been hosting races for months."

Amy Brennick	El Cerrito, CA	2021-03-07	"I believe that outdoor running events can absolutely be held safely during the time of Covid. Many companies in other states have been putting on safe events for months and the benefits of health, community and being outdoors is critical."

Participants can wear masks while competing and at the race site, if needed to dramatically lower the risk of continued virus spread. But we are generally healthy people, and this is an outdoor activity, and it's good for the whole family. It will be very good for these businesses to be able to resume as well. Move this forward please!"
